

Sales Specification

Dimethyl Acid Pyrophosphate in Isobutanol

dimethyl acid pyrophosphate

Test

Acid Number, mg KOH/g
Color, APHA
Specific Gravity @ 25°C/4°C

Specifications

360 - 385
100 Max.
1.02 - 1.07

Physical Properties

Appearance
Density @ 25°C
Flash Point, Cleveland Open Cup

Clear Liquid
8.7 lbs/gal
92°F

Uses

Dimethyl Acid Pyrophosphate has a variety of industrial uses including polymerizing agent, curing catalyst and accelerator in resins and coatings, surfactant and stabilizer.
