

Sales Specification

Methyl Isobutyl Carbinol Acid Phosphate

<u>Test</u>	<u>Specifications</u>
Acid Number, mg KOH/g	290 - 350
Color, APHA	150 Max.
Specific Gravity @ 25°C/4°C	1.0 - 1.15

Physical Properties

Appearance	Clear Liquid
Density @ 25°C	8.7 lbs/gal
Flash Point, Cleveland Open Cup	>200°C (392°F)

Uses

Methyl Isobutyl Acid Phosphate is a mild surfactant and is also useful to reduce friction in lubricant applications.

MIBCAP-01 02/12
