

## Sales Specification

# Dimethyl Acid Pyrophosphate in Isobutanol

dimethyl acid pyrophosphate

### Test

Acid Number, mg KOH/g  
Color, APHA  
Specific Gravity @ 25°C/4°C

### Specifications

360 - 385  
100 Max.  
1.02 - 1.07

### Physical Properties

Appearance  
Density @ 25°C  
Flash Point, Cleveland Open Cup

Clear Liquid  
8.7 lbs/gal  
92°F

### Uses

Dimethyl Acid Pyrophosphate has a variety of industrial uses including polymerizing agent, curing catalyst and accelerator in resins and coatings, surfactant and stabilizer.
